DETAILED ACTION

Receipt is acknowledged of amendment filed on August 20, 2008. Claims 1, 7, 8, 11, 12, 22, 27 are pending. Claim rejections as indicated in the previous Office action dated September 20, 2007 are withdrawn in view of the applicant's claim amendment. New rejections are made to address the new claim limitations.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 1 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 1 recites "butyospermum parkii", which is an old term or synonym for Shea tree. While applicant discloses in the original disclosure "Shea butter", which is a extracted fat from the seed of Shea, there is no support for the tree per se. Also, using consistent terminology within the application is recommended.

Claim Objections

Claim 7 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper

Art Unit: 1611

dependent form, or rewrite the claim(s) in independent form. Claim 7 (iii) recites that the composition of claim 1 further contains “oxybenzone present in an amount between about 1-5 percent by weight”, which is already recited in the newly amended base claim.

Response to Arguments

Applicant's arguments, filed on August 20, 2008 have been fully considered, but they are moot in view of the claim amendment in part and new grounds of rejection in part.

Conclusion

No claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
